6:30 to 7:30 p.m.

at the Adult Enrichment Center
101 W. Foothills Drive, Newberg

Volunteering: a facelift for your spirit.

Put your professional skills and life experience to work for a greater good. Your expertise in project management, public relations, office administration, event planning, program development, fundraising, teaching, or mentoring can continue to make a positive impact. Volunteer opportunities are fun, flexible and benefit children with special needs and their families.

Family Friends is a program of **Faith in Action**, an outreach of Providence Newberg Medical Center, connecting volunteers age 55+ with children who have a disability or chronic condition. The Faith in Action coalition serves older adults, children, and families who face extraordinary challenges related to health or age by mobilizing a corps of volunteers who express their personal faith through service.
